Invest in your future with postgraduate study

If you’re interested in postgraduate study in 2016, now is the time to invest in your future.

The Universities Admissions Centre (UAC) has supported thousands of people taking the next step in their lives. Last year alone UAC received more than 12,000 applications for postgraduate study.

A postgraduate degree is an opportunity for you to upgrade qualifications, improve your career prospects in a competitive job market, re-skill for a career change or pursue a long-held passion.

UAC has launched a new campaign to inspire those thinking about postgraduate study. It features Penny and Mark, two professionals who combine their study with busy work and family lives. They are proof that you can do whatever you put your mind to.

And you don’t have to wait until you graduate to put what you’re learning into practice: Penny and Mark have found that postgraduate study is helping them with the work they’re doing right now.

The video ‘Invest in your future with UAC’ can be viewed on the Universities Admissions Centre (UAC) YouTube channel.

One online application through www.uac.edu.au/postgraduate gives you the opportunity to choose from more than 800 postgraduate courses on offer from Graduate Certificates and Diplomas to Masters’ degrees.

Applications for first semester courses close in January but you can also apply for second semester study, so there is still time to plan your future.

UAC’s website provides all the information you need on how to apply, admission requirements, answers to frequently asked questions and a searchable listing of all available courses.

For more information you can call UAC on 1300 ASK UAC (1300 275 822) or from mobiles on (02) 9752 0200 – Monday to Friday, 8.30am to 4.30pm.

- END -
