ABOUT

Established over 30 years ago, the Australian College of Applied Psychology (ACAP) offers specialist courses in counselling, psychology, coaching, case management, social science, social work and youth work. We have over 5,000 students studying on-campus, by blended delivery or online. Courses can be studied full-time or part-time and students can choose to start in February, May or September depending on the chosen course.

ACAP is a registered higher education provider and a nationally registered training organisation. Our psychology degrees are accredited by the Australian Psychology Accreditation Council (APAC), our Bachelor of Counselling degree is accredited by the Psychotherapy and Counselling Federation of Australia (PACFA), our Bachelor of Counselling (Coaching) degree is accredited by PACFA and the International Coaching Federation (ICF) for 130.5 hours of coach-specific training, and our Bachelor of Social Work is an Australian Association of Social Workers (AASW) provisionally accredited qualification. Professional accreditation ensures these courses meet the relevant educational and training standards for graduates to seek recognition and practise in the profession.

At ACAP, we've designed a practical and interactive approach to learning that allows you to put the theory you learn into practice. Our academic staff have extensive industry experience, thorough knowledge of their discipline and an understanding of the latest work practices. We offer the full sequence of courses from Diplomas to Bachelor degrees, Graduate Diplomas and Masters degrees.

A number of ACAP's courses also enable you to put your learning into practice in a work environment while you are studying, so that you meet professionals working in the industry and build valuable experience and referees to add to your resume before you graduate. The Diploma of Youth Work CHC50413, Bachelor of Applied Social Science, Bachelor of Counselling, Bachelor of

Counselling (Coaching), Bachelor of Social Work include student placements, which are unpaid work placements in organisations related to your study.

ACAP also runs a not-for-profit psychology teaching clinic, located at our Sydney campus, which offers a range of psychological services to the community at low cost. Students of our Master of Psychology (Clinical) and Graduate Diploma of Professional Psychology, who are registered and provisionally registered psychologists, staff the clinic under the supervision of qualified and experienced senior psychologists. The services provided by the ACAP Psychology Clinic are informed by current research and adhere to ethical and professional standards to ensure the quality of the services provided.

ACAP's Sydney campus is located in Sydney's CBD making it easy to access via public transport and with a wide range of restaurants, cafes and retail outlets close by.
