

Non-assessable overseas secondary qualifications

Institutions that participate through UAC do not consider the following qualifications as comparable to the Australian Year 12 standard. They will not receive a UAC rank.

The National Academic Recognition Information Centre for the United Kingdom (UK NARIC) and Universities and Colleges Admissions Service (UCAS) are used by our institutions as the primary resources for determining the educational standard of overseas secondary qualifications. Australian Education International (through the National Office of Overseas Skills Recognition (AEI-NOOSR)) guidelines and other relevant resources are used in combination as required.

While they will not receive a UAC rank, some of these qualifications may be used as a basis of entry to pathway courses or as proof of completion of high school studies when applying in conjunction with the United States of America Scholastic Aptitude Test (SAT) 1 and American College Test.

If your only qualification is listed below, contact the participating institution/s to which you wish to apply for further information on your competitiveness for the courses that interest you. Institutions are also able to suggest pathway courses that may be applicable to you.

If you have qualifications in addition to those listed below, your overseas secondary studies may be superseded by or looked at in combination with these other qualifications.

For further information on specific conditions that may apply to qualifications, contact the institutions to which you are applying.

NON-ASSESSABLE OVERSEAS SECONDARY QUALIFICATIONS

Qualification name
Afghanistan Baccauria

* UAC assesses a senior secondary qualification or scholastic admission or aptitude test from this country based on commonly accepted guidelines and resources. Check Table 7 – Commonly Accepted Overseas Secondary Qualifications for more information.

[#] UAC assesses the Brazilian National High School Exam (ENEM), Greek Certificate of Access, the National Senta Test, the Thailand O-Net, Nepalese Higher Secondary Education Certificate and Taiwan General Scholastic Aptitude Test, which some of our institutions may use as a basis of entry into some courses. If you have one of these qualifications, contact UAC's participating institutions for more information about your competitiveness for entry into courses that interest you.
