INFRA-28	GNAF database update with 2021 SEIFA/ASGS data	Wednesday 6:00 PM	CLOSED

1 issue

Key	Summary	Release Notes Description	Implementation Notes
INFRA-29	SEIFA/ASGS data update to 2021 Census	• Type of change: data update • Areas impacted: The update of SEIFA and ASGS databases from 2016 Census data to 2021 Census data will influence the derivation of geographic disadvantages (AG01, AG02, S01R) and Equity assessment. This ensures that disadvantages/equity assessment is done based on the latest Census dataset. • Change note: This change entails the task of substituting the existing data in the SEIFA and ASGS databases at UAC with the recently acquired 2021 dataset. Additionally, it contains necessary adjustments to ensure the seamless integration of the new dataset, preventing any disruptions to existing services and APIs • User Impact: Applicants applying for disadvantages or Equity scholarships from 2024-2025 admissions.
